1st Semester,2017-18

Revision worksheet

Subject: G. Science Class II

Name: _____ Class/Sec : _____

Answer these Questions.

Q1.What is skeleton?

A: _____

Q2;Why do we need muscles and joints?

A; _____

Q3:Name the five senses?

A; _____

Q4:Name the five organs of senses?

A: _____

Q5.Name two animals that have sharp teeth?

A: _____

6.What are herbs and shrubs?

A: _____

Q7;What is nectar?

A: _____

Q8.What is root?

A; _____

Q9.Why oxygen is important?

A; _____

Q10.How can we change the nature of a things?

A: _____

Q11.How can we measure length and distance?

A:_____

Q12.Name some weighing machines?

A:_____

Q13.How long does the Earth take to spin around on its axis?

A;_____

Q14.How long does the Earth take to go around the sun?

A;_____

Q15.What is an orbit?

A:_____

Q16.What shape is the Earth?

A:_____

Fill in the blanks:

- a. Plants eaters are animals that only eat_____
- b. Meat eaters do not eat_____
- c. Some animals such as _____ and _____ eat both meat and plants.
- d. Frog and fish are similar because both lay _____ in water.
- e. Fish eggs first develop into_____ before turning into fish.
- f. Frog eggs first develop into_____

Use the correct words from the brackets to fill in the blanks.

1. A _____ is a place where two bones meet.(muscles, joints)
2. Muscles need _____ to become strong.(food, air)
3. Bones help us to _____(move, remember)
4. All of us have _____ number of bones in our bodies(a different,the same)
5. Bones move with the help of _____ and joints.(food, muscles)
6. There are _____bones in the human body.(206, 260)

7. The skeleton gives _____ to the body (strength, shape)
8. The organs in our body to _____ job.(the same, different)
9. We should drink _____glasses of clean water to keep healthy.(6to8, 1to3)
- 10.Regular exercise make us_____ (strong , weak)
- 11.Fruits and vegetables_____ for us(unhealthy, healthy)
- 12.Most human are _____(herbivores , carnivores , omnivores)
- 13.A frog lives in _____(air, water, land, land and water)
- 14.It has _____-limbs.(two, four, six)
- 15.Its skin is _____(dry and scaly, bumpy and wet)
- 16.It _____ a neck(has, does not have)
- 17.It eats _____(flies, grass)
- 18.It_____.(croaks, hisses, screeches)
- 19.Baby frogs are called _____chrysalis, tadpoles)
- 20.Solids and _____can be seen easily.(liquids, gases)
- 21._____cannot be seen easily.(liquids, gases)
- 22._____can be poured.(liquids ,solids)
- 23.Air contains many _____(gases ,liquids)
- 24.Water vapor is the gas that we get when we _____ water(freeze, boil)
- 25._____is needed by us to stay alive.(oxygen, vapor)
- 26.Freezing can turn a _____ into a solid.(liquid, gas)
- 27.One example of freezing is _____.(water, ice)
- 28.Gases and _____do not have fixed shape ,they take the shape of their container.(soilds, liquids)
- 29.I will use a _____to measure the length of my book .(kitchen scale, ruler)
- 30.My mother wears a _____ on her wrist.(watch, clock)
- 31.A full jug holds _____ water than a full glass.(less, more)
- 32.The _____is used to measure how much sugar to put in a cake.(kitchenscale, thermometer)

33. Fruits are covered by a _____ on the outside and have the _____ inside them. (skin, seed)

34. The _____ grows under the ground while the _____ grows above the ground. (root, shoot)

Find out if the following are shrub or trees.

1. Jasmine _____

2. Tamarind _____

3. Banyan _____

4. Oak _____

5. Hibiscus _____

Find out and write the name of one of four plants that grow around your home or school.

1. _____

3. _____

2. _____

4. _____

Find out and write the name of one vegetable that is cooked and eaten in your home which

1. Leaf. _____

2. Stem _____

3. fruit _____

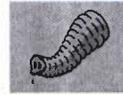

4. Root _____

Matching

For fighting

For keeping warm

For breaking tree branches

For scratching and tearing flesh

Matching

Thermometer	weight
Bathroom scale	time
Measuring tape	temperature
Clock	length
Beaker	liquid

Correct those statements that are false

- 1.The Earth is planet _____
- 2.There are six planet orbiting the sun _____
- 3.The sun travels around the Earth _____
- 4.The sun appears to be so bright because it is the biggest star. _____
- 5.The sun gives us heat and light _____

Write yes or No

1. The human body comes in many types of sizes _____
2. The skeleton help us to stand upright _____
3. Our muscles do not need food to work _____
4. Bones work alone _____
5. We will get stronger if we eat healthy food _____
6. Healthy food gives us energy _____
7. Different parts of our body do same job _____
8. A car need water to run _____
9. All animals live on land _____
10. Birds make their nests in tree _____
11. All animals eats plants _____
12. Animals have different body parts. _____
13. Deer and rabbit eat meat _____
14. The tadpole becomes a frog . _____
15. Butterflies do not have lifecycle _____
16. The life cycle of all animals starts with the egg. _____
17. Some plants grow in water _____
18. Paper comes from trees. _____
19. Plants are not useful to us. _____
20. Sugar is made from sunflower. _____
21. We get tea and coffee from plants. _____
22. Seed are of different shapes and sizes. _____
23. The fruits have not skin outside. _____
24. Some fruits grow in the form of nuts and cones. _____
25. Tomatoes are fruit. _____
26. The Sun is a huge stars. _____
27. The movement of the Earth is called rotation. _____
28. The shape of the Earth is square. _____

Draw and label the parts of flower?

Make a lifecycle of fish or Butterfly:

Draw of label a life cycle of fish(pg-18)

Draw muscles and joints (use a Colour paper)

Draw and label the body parts:

- 1.The brain
- 2.The heart
3. The stomach
- 4.The lungs

What work is done by these parts of our body?

- a. The heart _____
- b. The lungs _____
- c. The brain _____
- d. The stomach _____
